DEADLY & DANGEROUS

REDBACK

May or may not have a red mark. Prefers dry and sheltered areas under houses, garbage bins, toilets, and rubbish areas.

MALE FUNNEL WEB SPIDER

FEMALE FUNNEL WEB SPIDER

Ground dwelling spiders.
ACTIVE DURING LATE SUMMER AND AUNTUMN.

WHITE TAIL SPIDER

Cigar shaped body. Found under bark, crevices outside, litter and moist areas inside.

TOXIC & PAINFUL BITE

FEMALE MOUSE SPIDER

Often mistake for the funnel web. Lives in ground. Toxic and painful bite

MALE MOUSE SPIDER

Roams looking for the female. Toxic and painful bite

COMMON BLACK HOUSE SPIDER

Likes rock walls, toilets, sheds, window frames and guttering. Makes an untidy web

WOLF SPIDER

Inhabits gardens making holes in the ground. Moves very fast when disturbed.

LOW RISK

FEMALE TRAP DOOR SPIDER

Commonly mistaken for funnel web spider. Lives in ground. Bites are painful but not toxic

MALE TRAP SPIDER

HUNTSMAN SPIDER

Front legs are longer than rear legs. Might cause a painful bite.

GARDEN ORB-WEAVER SPIDER

Hides in foliage during the day. Seldom bites.

SAINT ANDREWS CROSS SPIDER

Usually hangs in webs in the shape of a cross

Always be on alert for severe allergic reactions. Anaphylaxis is a life-threatening condition that requires emergency medical attention.

IF BITTEN CONTACT YOUR LOCAL HOSPITAL OR CALL 000 FOR AN AMBULANCE.
