

SAFETY DATA SHEET

**BROMAKIL SUPER RAT DRINK**

**1 –IDENTIFICATION**

**1.1- Product identifier**

BROMAKIL SUPER RAT DRINK

**1.2- Other means of identification**

**1.3- Recommended use of the chemical and restrictions on use**

Rodenticide - Bait used for the control of rodents.

**1.4- Details of manufacturer or importer**

**Contact details in Australia**

De Sangosse Australia Pty Ltd  
17/45 Huntley St,  
Alexandria NSW 2015 (Australia)  
☎ : 1800 782 969 or 02 9519 6360  
Mail: [infoau@desangosse.com](mailto:infoau@desangosse.com)

**1.5- Emergency phone number**

Australian emergency number 1800 033 111

**2 –HAZARD(S) IDENTIFICATION**

**2.1 – Classification of the hazardous chemical**

**In accordance with GHS Classification:** Not classified

**Pictogram:** No pictogram

**Hazard statement:** No hazard statement

**Precautionary statements:**

POISON. Keep out of reach of children. When using the product, wear rubber gloves. If poisoning occurs, get to a doctor or hospital quickly. Do not eat, drink or smoke when using this product. Do not contaminate streams, rivers or waterways with the chemical or used containers. Dispose of carcasses safely by burning or burying. Dispose of spoiled baits by placing in plastic bags and putting in garbage.

**Hazard Designation:** Based on available information, not classified as hazardous according to the criteria of Safe Work Australia

**ADG Classification:** Based on available information, not classified as a Dangerous Good under the Australian Code for the Transport of Dangerous Goods by Road and Rail, 7<sup>th</sup> Edition

**SUSMP Classification:** Schedule 6

**3 – COMPOSITION AND INFORMATION ON INGREDIENTS**

Rodenticide bait based on Bromadiolone active substance (CAS number: 28772-56-7)

Content of Bromadiolone : 0.5 g/L

## 4 – FIRST AID MEASURES

### 4.1- Description of necessary first aid measures

#### **GENERAL INFORMATION:**

In all cases of suspected exposure, medical assistance should be sought immediately. Show this data sheet. See antidotal therapy below. Note that poisoning symptoms may develop over the course of several days.

#### **EYE CONTACT:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Monitor for symptoms described above.

#### **INHALATION:**

- The preparation is a non-dusty bait. Inhalation is not applicable as a route of exposure.

#### **SKIN CONTACT:**

- Remove contaminated clothing. Launder before re-use.
- Rinse skin immediately with soap and water.
- Monitor for symptoms.

#### **INGESTION:**

- Wash out mouth with plenty of water.
- If swallowed, seek medical advice immediately and show the container/label/safety data sheet.
- Do not induce vomiting unless told to do so by the poison control centre or doctor.
- Do not give anything by mouth to an unconscious person.

### 4.2- Symptoms caused by exposure

Clinical symptoms: nosebleed, gum bleed, spitting blood, multiple or large haematoma, generally sudden appearance of an unusual visceral pain.

Biological symptoms: blood in the urine, increase in coagulation time.

### 4.3- Medical attention and special treatment

Primary treatment is antidotal therapy rather than clinical assessment. Antidotal therapy: SPECIFIC vitamin K1 (phytomenadione). Analogues of Vitamin K1 (vitamin K3: menadione for example) are not very active and should not be used. The efficacy of the treatment should be followed by measuring the coagulation time. The treatment should not be discontinued until the coagulation time returns to normal and REMAINS normal. In case of serious intoxication, it may be necessary to administer, in addition to vitamin K1, blood or frozen fresh plasma or PPSB coagulant blood fraction transfusions.

## 5 – FIREFIGHTING MEASURES

### 5.1- Suitable extinguishing equipment

Use foam, dry chemical, carbon dioxide, or water spray when fighting fires involving this material. Foam or dry chemical fire extinguishing system is preferred to prevent excessive water run off.

### 5.2- Special hazards arising from the chemical

The mixture is not known to produce hazardous decomposition products under normal storage conditions. Normal products of organic combustion will be released under conditions of pyrolysis or combustion.

### 5.3- Special protective equipment and precautions for firefighters

Wear breathing apparatus and appropriate protective clothing.

## 6 – ACCIDENTAL REALEASE MEASURES

### 6.1- Personal precautions, protective equipment and emergency procedures

Operators must observe precautions during handling and storage. See also section 8 of this safety data sheet.

### 6.2- Environmental precautions

In case of major spillage in water, prevent entry into drains and waterways. If polluted water reaches drainage systems or water courses, immediately inform the competent authorities.

### 6.3- Methods and materials for containment and cleaning up

Stop leak if safe to do so, and contain spill. Absorb onto sand, vermiculite or other suitable absorbent material. If spill is too large or if absorbent material is not available, try to create a dike to stop material spreading or going into drains or waterways. Sweep up and shovel into labelled containers and dispose of promptly. Recycle containers wherever possible after careful cleaning. Refer to product label for specific instructions. After spills,

wash area, preventing runoff from entering drains. If a significant quantity of material enters drains, advise the competent authorities. Thoroughly launder protective clothing before storage or re-use. Refer to Section 13 for details of disposal.

---

## **7 – HANDLING AND STORAGE**

### **7.1- Precautions for safe handling**

Read carefully the label before handling/use.

Protective equipment: see section 8.

Users should wash hands immediately after handling. When using, do not eat, drink or smoke.

### **7.2- Conditions for safe storage, including any incompatibilities**

Store securely. Store in the original packaging. Keep away from food and out of reach of children.

---

## **8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION**

### **8.1- Exposure control measures**

Exposure limits are not determined for Bromadiolone active substance.

### **8.2- Biological monitoring**

No information available.

### **8.3- Control banding**

No information available.

### **8.4- Engineering controls**

No information available.

### **8.5- Individual protection measures, for example personal protective equipment (PPE)**

Operators should be aware that the active substance may cause serious damage to health by prolonged exposure. In case of frequent or prolonged use, monitoring of coagulation time is recommended.

#### **➤ EYE AND FACE PROTECTION:**

Wear face shield

#### **➤ SKIN PROTECTION:**

Wear PVC or rubber apron, elbow length PVC gloves and impervious footwear  
Users should wash hands immediately after handling in all cases.

#### **➤ RESPIRATORY PROTECTION:**

Not applicable.

#### **➤ THERMAL HAZARDS:**

Not applicable.

---

## **9 – PHYSICAL AND CHEMICAL PROPERTIES**

**PHYSICAL STATE:** Viscous liquid

**COLOUR :** Green

**ODOUR:** Mild odour

**FLAMMABILITY:** Not highly flammable

**OXIDISING PROPERTIES:** Not oxidising

**EXPLOSIVITY:** Does not have explosive potential

---

## 10 – STABILITY AND REACTIVITY

### **10.1- Reactivity**

The mixture is not known to undergo hazardous reactions under normal handling conditions.

### **10.2- Chemical stability**

The mixture is stable under normal ambient conditions.

### **10.3- Possibility of hazardous reactions**

The mixture is not known to undergo hazardous reactions in contact with other substances.

### **10.4- Conditions to avoid**

None known.

### **10.5- Incompatible materials**

None known

### **10.6- Hazardous decomposition products**

The mixture is not known to produce hazardous decomposition products under normal storage conditions. Normal products of organic combustion will be released under conditions of pyrolysis or combustion

## 11 – TOXICOLOGICAL INFORMATION

### **11.1- Information on toxicological effects**

#### **ACUTE TOXICITY**

Studies conducted on the active substance Bromadiolone

LD<sub>50</sub> oral (Rat): between 0.56 and 0.84 mg/kg

LD<sub>50</sub> dermal (Rat): 1.71 mg/kg

LC<sub>50</sub> inhalation: 0.43 µg/L

Eye Irritation: May irritate eye

Skin Irritation: May irritate skin

Sensitization: Not sensitising.

#### **CHRONIC TOXICITY**

Studies conducted on active substance Bromadiolone

LOAEL (Dog): 20 µg/kg bw/day

NOAEL (Dog): 8 µg/kg bw/day

The substance is therefore classified as having danger of serious damage to health by prolonged exposure.

#### **GERM CELL MUTAGENICITY**

No data available for the mixture.

Active substance Bromadiolone: No in vivo or in vitro evidence of mutagenicity.

#### **CARCINOGENICITY**

No data available for the mixture.

Active substance Bromadiolone: No evidence of carcinogenicity.

#### **REPRODUCTIVE TOXICITY**

No data available for the mixture.

Active substance Bromadiolone: No evidence of reproductive toxicity

#### **SPECIFIC TARGET ORGAN TOXICITY (STOT) – SINGLE EXPOSURE**

No data available.

#### **SPECIFIC TARGET ORGAN TOXICITY (STOT) – REPEATED EXPOSURE**

No data available.

#### **ASPIRATION HAZARD**

No data available.

### **11.2- Information on possible routes of exposure**

The possible routes of exposure are: oral, dermal, and ocular

### **11.3 – Early onset symptoms related to exposure**

None. See delayed effects hereunder.

#### **11.4 – Delayed health effects from exposure**

Clinical symptoms: nosebleed, gum bleed, spitting blood, multiple or large haematoma, generally sudden appearance of an unusual visceral pain.

Biological symptoms: blood in the urine, increase in coagulation time.

#### **11.5 – Exposure levels and health effects**

No data available.

#### **11.6 – Interactive effects**

No data available.

## **12 – ECOLOGICAL INFORMATION**

### **12.1- Ecotoxicity**

Studies conducted on active substance Bromadiolone

#### **AQUATIC ACUTE TOXICITY**

LC<sub>50</sub> Fishes (96 h): > 8 mg/l (*Oncorhynchus Mykiss*)

EbC<sub>50</sub> Algae (72 h): 0.17 mg/l (*Scenedesmus subspicatus*)

EC<sub>50</sub> Daphnis (48 h): 2 mg/L (*Daphnia magna*)

The substance is very toxic to aquatic organisms.

#### **TOXICITY FOR TERRESTRIAL SPECIES**

Acute toxicity LC<sub>50</sub> Earthworm (14 days) (*Eisenia foetida*): >8.4 mg/kg soil

#### **BIRD TOXICITY**

Dietary (5 days): LC<sub>50</sub>: 62 mg/kg of food (*Colinus virginianus*)

Acute toxicity (5 days): LD<sub>50</sub>: 138 mg/kg pc (*Colinus virginianus*)

### **12.2- Persistence and degradability**

The substance is not considered as easily biodegradable.

Aerobic degradation: 0% degradation after 28 days.

### **12.3- Bioaccumulative potential**

Log Pow: 3.8 – 4.1 (20-25°C) (pH6-7). Bioaccumulative potential.

Bioconcentration factor (BCF): 575

### **12.4- Mobility in soil**

The substance is considered as having low or no mobility in soil.

### **12.5 - Other adverse effects**

No data available.

## **13 – DISPOSAL CONSIDERATIONS**

### **13.1- Disposal methods**

Product will be disposed of according to applicable legislation and regulations, if necessary, after consulting an authorised waste disposal company. It is recommended that the waste product is stored in specially designated spaces or destroyed in incineration facilities by the waste disposal companies.

Care should be taken to ensure that disposal methods do not expose the preparation to non-target wild or domestic animals or pets. Dispose of according to national/local law. Do not release into drains or waterways. Do not contaminate water, food or feed by storage or disposal.

Do not contaminate ground, waterbodies or watercourses with chemicals or used containers. Refer to local waste and environmental regulations.

The empty container should not be used for any other purpose and should be disposed of considering the comments above. Do not reuse or refill the container.

## 14 – TRANSPORT INFORMATION

**Not classified as a dangerous good according to the Australian Dangerous Goods Code for Rail and Road Transport, 7<sup>th</sup> Edition.**

### **14.1- UN Number**

This product is not classified as dangerous goods.

### **14.2- Proper shipping name or technical name**

This product is not classified as dangerous goods.

### **14.3- Transport hazard class**

This product is not classified as dangerous goods.

### **14.4- Packing group number**

This product is not classified as dangerous goods.

### **14.5- Environmental hazards for transport purposes**

This product is not classified as dangerous goods.

### **14.6- Special precautions for user**

No special precautions.

### **14.7- Additional information**

No additional information.

### **14.8- Hazchem or emergency action code**

Not Applicable

## 15 – REGULATORY INFORMATION

### **15.1- Safety, health and environmental regulations**

SUSMP: Schedule 6

APVMA: Registered according to the Agricultural and Veterinary Chemicals Act 1994.

APVMA Product Number: 47484

## 16 – ANY OTHER RELEVANT INFORMATION

### **Date of preparation of the latest revision**

7 July 2021

### **Revisions**

Minor formatting changes in all sections to comply with the Safe Work Australia Preparation of Safety Data Sheets for Hazardous Chemical Code of Practice July 2020.

### **Abbreviations:**

ADG: Australian Dangerous Goods Code

APVMA: Australian Pesticides and Veterinary Medicines Authority

EC<sub>50</sub>: Effective concentration 50%

GHS: Global Harmonised System of Classification and Labelling of Chemicals

LC<sub>50</sub>: Lethal concentration 50%

LD<sub>50</sub>: Lethal dose 50%

LOAEL: Lowest observable adverse effect level

NOAEL: No observed adverse effect level

SUSMP: Standard for the Uniform Scheduling of Medicines and Poisons

*Information noted in this safety data sheet is based on our present technical and scientific knowledge of the product at this date.*

*This information should be used as a guide and does not imply any warranty concerning the specific properties of the product and the specific local needs.*

*Recipients of this SDS must ensure that the information it contains has been properly read and understood by all who use, handle, dispose of or in contact with the product.*

*Our local licensee, liable for the local distribution of the product, will adapt this safety data sheet to the local regulation.*
